Dear Jamie:

I was happy to have your letter of January 2, with news about your new assignment in San José. As you know, we have very cordial relations with the Figueres Government and we expect to receive an increasing flow of Costa Rican public officers for training in Puerto Rico in the coming years. It is my hope that some of us may be able to repay their visits.

I shall see that you get from time to time news about our developments here.

With warm regards I remain,

Sincerely yours,
