Dr. Arturo Morales Carrion  
San Juan 9, Puerto Rico

Dear Dr. Carrion:

It is two weeks since you left for home, and still no word from you. I am sure you must be awfully busy trying to catch up with your back-log.

Art wrote to Stanley few days ago and I believe he has already answered. We are doing rather nicely and keeping away from the certain group. There is too much jealousy among the different groups, and my wife and I believe that we shouldn't bother with them at all, unless I am urgently needed for a specific reason of which I could be of some help.

Enclosed you will find some pictures we took while you were here. Your wife may think that you had a glorious time, but we know differently what you had to go thru with this Puerto Ricans in Honolulu. Sorry to say that majority of our groups are not trained to entertain dignitaries.

Many wonderful people are hurt, due to the misfortune of the so called Puerto Rican Community Council, how they went about calling few of their friends and elected certain officers who don't do a thing for any Puerto Rican official at anytime. I don't want to say very much about it, but you'll soon find out the details when you write to Mr. Paul S. Troche, one of our greatest leader in our community. Mr. Perez probably goes over there and tell you all kinds of stories, but he'll never get the support from the nice people. Nevertheless, that's how the Puerto Rican community exist in Honolulu.

Until we hear from you, from our nice people, we wish you many, many happy years of COMMON-WEALTH OF PUERTO RICAN GOVERNMENT.

Very truly yours,

*Joseph H. Santiago*
