Miss Muna Lee
Calle del Sol No. 2
San Juan, Puerto Rico

Dear Muna:

This isn't nice, breaking into your much-deserved vacation with shop talk, but I shall certainly be grateful for your comments on the attached. I am hoping that in the event there are additional significant ideas, there will still be time to get them in before the overall report, of which this will constitute a part.

I sent a line to Arturo to express my appreciation for the Commonwealth's fine hospitality and congratulations for his magnificent performance. Hardly had I mailed the letter when I received from him further remarks on the subject, which I presume were written for the San Juan press. They were in the same convincing and superbly-chosen words.

How I wish I could have remained a day or two longer. As it was, I skipped the picnic in order to make some contacts downtown and at the university and was at least partially successful. At Gainesville I delivered your saludos to Drs. Wilgus and McNicoll, as per instructions, and they were gratefully received. The Conference was a lot of fun.

Until next month, and with abrazos fuertes and all best wishes for a happy Christmas,

Sincerely,

A handwritten signature in blue ink, appearing to read "Jim".

James H. Webb, Jr.
Cultural Program Officer
(Latin America)
