Report on the Committee on Culture,
Third Meeting of the Inter-American Cultural Council

The attached report is from my notes and memory. Since I did not cover all sessions of the Committee, and since many of the items discussed involved subject matter to which I had not given previous personal study, the report should be read carefully by yourself and other members of the Committee on Culture.

I am sending copies to delegates Lee, Vázquez and Cline for comment, hoping there will be none of sufficient extent to require radical redoing. In the meanwhile, if you note any glaring omissions please advise me immediately in order that I may re-consult my notes and make whatever contacts may be necessary with other Committee members.
