Dear Morrie:

Things have been happening with Mufioz. On October 7 he receives the Freedom House Award. The November issue of READER'S DIGEST will have a profile on him, by Don Robinson. Besides being one of the saltiest and most colorful characters in public life, he's really going places. All this should restimulate Ed Murrow's interest, I hope. Especially since you wrote Murrow that you were going to keep after him in the fall to come to Puerto Rico with you, and do a program on Don Luis.

Incidentally, Mufioz is moving to get that atomic reactor you suggested, too.

I expect to be in New York myself for the Freedom House award dinner. Shall we have a drink?

All the best,

MORTON SONTHEIMER
