

Rio Piedras, Puerto Rico  
September 9, 1954

Dear Colleague:

The Boy Scouts of America is one of the most effective agencies promoting good citizenship, and thereby, combating juvenile delinquency. The Puerto Rico Council of the Boy Scouts is increasing its leadership and expanding its facilities, in order that the organization may reach more boys and be more effective in its operation. In order to do this an increased budget is necessary and the current fund raising campaign is attempting to secure the money to meet this increased budget. Every dollar raised will be spent here in Puerto Rico.

Won't you join your colleagues in contributing to the support of this worthwhile organization? Give as much as you can and give today.

Sincerely,

David C. Furman, Chairman  
University Committee for  
Boy Scouts of America
