Dear Dr. Wilgus:

I deeply regret that the organization of the Eighth Congress of the International Institute of Ibero-American Literature, which has just taken place in Puerto Rico, has prevented me from sending you my curriculum vitae and photograph which you requested. I am doing so today with apologies.

I have thought of the following title for my lecture: "The Commonwealth of Puerto Rico: Its Historical Roots and its Present Development." I have taken note of the suggestions you make regarding the preparation of the paper.

Best personal regards from,
