Corporate and Business Firms Committee

Mr. Edward T. Krieger, Chairman of the Business Firms Committee tried to make a number of appointments with committee members for himself and Dr. Hoxeng for Friday, May 5th. Unfortunately, most of the individuals called were off the island at the time. A meeting between Dr. Hoxeng and Mr. Krieger is planned for October 8th to discuss further contacts next week.

Banking Committee

This committee will be a sub-division of the Corporate and Business Firms Committee. Information from all the banks is now being collected so that a formula may be worked out that will be agreeable to the bank leaders for support to IAU.

Foundations

The Standard Oil Foundation, Inc. in Chicago has stated that they are giving serious consideration to an appeal from IAU. However, it will be 60 to 90 days before a definite conclusion can be made. Mr. Carl Turkington, General Manager of Esso Standard Oil and a member of the Corporate Committee will be contacted to obtain additional support for this appeal.

Burlington Industries Foundation has suggested that we get in touch with Mr. Rountree, Manager of the Sabana Grande Manufacturing Company regarding the program.

Parents Committee

In anticipation of forming a Parent Committee, the San Germán registration office has supplied a list of students and parents names for Area I. This was done via IBM.

Hato Rey, Area II, will have to furnish the information by hand and because of pre-registration problems there will be a delay in receiving this information.

Reports

The monthly report for April was a compilation of activities to date so as to be presented to the Administrative Committee meeting scheduled for Monday, May 8th.
