

October 15 -

2110 5 STREET  
WASHINGTON, D.C.

1916

Dear Mrs Harris -

I'm glad if you to send  
us three perfectly splendid  
photographs - They bring us all  
back to very clearly, and the  
pleasure we had with you  
and yours last July. Very  
many thanks for them & for re-  
membering us. The Home sent me  
the one we took of your house  
with us all in the porch & it did

Come out & well nigh I  
wish in lead shown up the  
cracks & the holes & all that!  
And to think of your being  
the place! It is too terrible.  
That storm never have been  
a storm - we had no ac-  
count of it in the paper but  
the time we were in the  
mountain where no papers could  
reach us & so we have merely  
heard that there was a disastrous  
cyclone. That must be the storm

you mean when you dare not stay inside &  
would not get in. I wish I could hear all about  
it! you few words on the subject just made my  
hair stand on end! I wonder what a part  
 Rican friend is like - if it is in some special kind.

My brother and I are starting new work  
again here - he is already preaching three times  
every Sunday <sup>for the people are well from the summer meetings.</sup> & the church is  
your husband is coming to Washington & we hope

he can arrange to stay with us while he is here.  
Our house is 2 days from the car line so I  
think he would find it convenient & we shall  
esteem it a great privilege to have him under  
our roof. Let us know about when to expect  
him - that is all we ask. With love & very best  
wishes & remembrances to you all. Love

Cordially yours

Miss C. Wood
