Am-V Catechist April 3. Prest. Eddy 2pd

As my letter was too late for this weeks boat
I shall add the usual womans post script before
sending it next week. I am sure you will receive
it in plenty of time for your May missionary
meeting.

Passion week was duly celebrated here by the Romanists.
Every day of the week, the street was a procession supposed to
represent the events of Christ last week on earth. But
the hideous images and half-drunken mummers
sadly misrepresented things. One fine Good Friday
represented a funeral. An image of our Lord was placed in
a glass coffin and carried thro the streets. Everything that
was done seemed to detract from the sacredness of
these things and make them common. I do not
know anything about Cath. in the States - but
here it is worse than heathenism. Its idleness and
hypocracy form one of the great barriers to Christ progress
& stop in any direction.

Despite all this, our services every night of the week were
unusually well attended. If we only had one of those
little telescope organs for times like these - and
for all times. These
people love music and flock to hear it. One
of my friends here in P.P. has an old wheezing
groaning portable organ, and wherever it is
unfolded - [illegible] place, house, or street
[illegible] to hear it. Bless her heart and I am
sure she does know what wonders a new
organ in this direction might work in this direction.
