My Dear President Seel:

A neighbour ranchman has just married (second wife. She a protestant and he a Catholic) and are flying tomorrow to Puerto Rico. He is stopping in the Hilton Caribe Hotel. He is a very dear friend of ours and I want to have him visit Poly. He has a 40,000 acre ranch adjoining mine. I want him to get interested in Poly and hope you can get in touch with him at once. His stay is limited to October 19th, having arrived on the 12th. His name is Thos. E. Burns of Dilley Texas.

I have written Gov Beverley to help him to map out a trip across the Islands mountains to San German. I have suggested that he spend a day and night at Costello and be considered as my guest.

Send me the Bill. I wish Dr Palmer could take him over to the Phosphorescent Bay at night if possible, however you will want to make sure that he really sees Poly inside and out. Also, Post

Coeli in Town. He is the kind of man that you want to interest in the work there if possible. If interested he might want to help you meet men in Texas who have millions. Do not mention anything about money... simply try to get him to see Poly. He is rather shy but you will find him pleasing, I hope.

Kindly remember me to all our friends there. I hope you can raise the needed money for Poly's development. There is a lot of it in Texas.

With kindest regards also to Mrs Seel, Cordially yours,

*John William Harris*

He may object to this and if so let him pay it for he is, like most wealthy men, very unwilling to accept favors.*
