Let's get down nearer home.
The Church near and is not now carrying out the whole program of Jesus Christ for His Kingdom.
We have hospitals, schools, orphanages, and churches for the physical needs of man.
Schools and colleges for the intellectual needs of man.
Churches for the spiritual needs of man. But we have yet to accept the program of Christ in its entirety. We need and must include the supply of social and economic needs by man and do it now or the church will find itself without mission until it
the Church.
