Dear Sir. Dear President:

Here is to you with all my heart and prayers. The Lord has opened to you a wonderful opportunity to make friends in a wide open door. May God bless you richly. It is no easy job but a wonderfully happy one.

This because I have found myself something in the recruiting and completing the history ofPoly. It has captured my energy. For the whole 38 years in the past, has passed through my thoughts. My job to get her facts and put...
Now into a logical order. Any one
comps. & write existing if he were not
troubled with facts. I could spend
another 4 months on it, but it is
enough. I hope it will be to the
advancement of PFP through the
years to come.

By the time this note is de-
fined to go to N.Y., son or about the
20th inst. May spend the week
and with Roswell Miller, you
have two fine men in Wolfe &
Finkle. I always try to preach
it alone. Make them while you
speak.

I would like to make it in you
eyour project necessary, because I
may use you as an observer and
run the 25 as an observer and
run the 25 & make it work. Of course I
will get them and if a change on
friends & add additional knowl-
edge. Insanely yours,
